FIG. 4b

A line graph showing the relationship between Sensitivity (Y-axis) and Distance Beam-Diaphragm (X-axis). Two curves are plotted: one labeled 'THINNER' and one labeled 'THICKER'. The 'THINNER' curve rises more steeply, reaches a higher peak sensitivity at a shorter distance, and then declines. The 'THICKER' curve rises more gradually, reaches a lower peak sensitivity at a longer distance, and then declines. The two curves intersect at a point between their respective peaks.
